Product Description

The Aloe Vera Tonic Lotion (500ml) from Xanitalia nourishes and cools the skin as a pre-treatment for depilation. The Tonic Lotion ensures that the skin is optimally prepared for depilation and prevents irritations. The tonic lotion has a liquid, non-sticky texture that is quickly absorbed. It softens the skin with the help of soothing, protective aloe vera. Massage before depilation for better adhesion of the hair and a faster, more effective process.
