Product Description

Squeeze wax is improved to simplify the depilation process for you. You can apply liposoluble squeeze wax directly to your skin without any wax preparation or heating. You can just squeeze 100% Cire Wax without the need for any pre-preparation or heating. The easy application head allows you to apply the wax on your skin directly as a thin layer easily like other roll-on cire waxes. The formula of Squeeze Wax is sugar free, it does not feed the hair roots. You can get smoothness and softness up to 4 weeks on your skin with 3 types for "Thick and Dense Hair", "Normal Hair" and "Sensitive Skin".

Xanitalia Hi Microwavab 350ml

Ideal for the travel treatments. Heat in wax heater or immerse the wax. Directions completely melted. spatula, working in strip of non-woven firmly. Tear off sharp direction. Remove a

appropriate cleansing oil.

Product Description

Premuim Liposoluble Depilatory Wax, in 350 ml pack.

PREMIUM XANITALIA hair removal waxes present a revolutionary concept. They are characterized by a new **HIGH-YIELD HD FORMULA**, which allows you to carry out more hair removal with less use of wax. In fact, a very thin layer is sufficient for perfect hair removal. The particular packages, made of a special plastic material, allow the traditional use of the wax with a WAX HEATER or the possibility of melting the product very quickly in the **MICROWAVE in just 3 minutes**. The performance and quality remain unchanged and the fragrances intense. Furthermore, the pots are equipped with easier and safer opening thanks to a practical plastic tab. **Choose between:** Azulene, Aloevera, Lavanda, Argan, Chlorophyl & TeaTree **Xanitalia High Definition Microwavable Strip Wax Tubs - Effortless Hair Removal**

Experience salon-quality hair removal at home or on-the-go with Xanitalia High Definition Microwavable Strip Wax Tubs. Ideal for travelers or for quick touch-ups between salon treatments, this premium depilatory wax offers a convenient and effective solution. **Usage**

Instructions:

1. Heat the wax tub in the microwave for 3 minutes or use a wax heater to melt the wax.
2. Once melted, apply a very thin layer of wax on the skin in the direction of hair growth using a spatula.
3. Place a strip of non-woven fabric over the wax, ensuring it adheres firmly.
4. Quickly tear off the strip against the direction of hair growth for smooth and efficient hair removal.
5. Use an appropriate cleansing oil to remove any wax residues for a clean finish.

Product Description: Xanitalia High Definition Microwavable Strip Wax Tubs come in a convenient 350ml pack, making them perfect for at-home use or while traveling. The premium

liposoluble depilatory wax is designed with a revolutionary High-Yield HD Formula, allowing for more effective hair removal with less wax usage. A thin layer of wax is all you need for flawless results. **Key Features:**

- High-Yield HD Formula for efficient hair removal with minimal wax usage.
- Easy to melt in the microwave in just 3 minutes or can be used with a wax heater.
- Comes in a 350ml pack, ideal for home use or travel.

Product Description

Easy to use **Instructions:**

1. Heat in the Microwave for 2min until it reaches a thick caramel consistency.
2. Allow it to cool a bit if necessary .
3. Always do a patch test first.
4. Ensure that the skin is free of makeup, oil and lotions and is moisture free (apply some talc powder for oily skin types) Apply in the direction of the hair growth, remove by pulling the wax in the opposite direction.

This Kit contains:

- 300 g hot wax
- 1x wooden spatula
- 1x instruction sheet

The pot with depilatory wax made from natural resins is heated in the microwave. The application of this wax does not require wax strips as it is simply applied with a spatula and removed by pulling off.
