Product Description

10 x 100ml Xanitalia wax cartridges of your choice. Please specify the variants you prefer in the notes

Strip Wax A cartridge

Wax with Aloe Vera nourishes and softens the skin and perfects its texture and thickness, leaving it smooth and supple.

Wax Cartridges a

- Roll-ons eliminate the risk of contamination and do not dry out. They do not arise in wax pots and are re-dipped. They are double-dipping and ensure that no wax is wasted. They contain the perfect amount of wax for several treatments.

single client without the risk of contamination since the remaining wax in the cartridge never touches the skin or is exposed to the outside. No risk of external agents like airborne bacteria, dust or hair getting into the roller.

- Roll-ons are heated evenly when a suitable warmer is used, which allows the whole application process to be done without delays.
- Roll-on waxing is suitable for both large areas such as the legs and arms and small areas such as the face. Even the bikini line can be waxed with a roller.
- The wax is left at a warm temperature that won't cause too much discomfort on the skin.
- The wax in the rollers is water-soluble, so there is no sticky residue. Still, it's recommended to use a post-depilatory lotion for perfect cleanup.
- Its quicker!

Product Description

Strip Wax Aloe Vera - 100ml cartridge Wax with Aloe Vera extract effectively removes hair, nourishes and softens the skin. Wax does not irritate the skin and perfectly removes hair of varying length and thickness, leaving no broken hairs.

Strip Wax B cartridge

Why Roll-On Wax

- Roll-ons eliminate contamination that can arise in wax pots when applicators are re-dipped or double-dipped, ensuring that no wax samples contain the pathogens from several treatments on a single client who touches the skin, reducing the risk of external infection or hair getting contaminated.
- Roll-ons are heated to a warmer temperature than application products.
- Roll-on waxing is ideal for areas such as the legs, arms, and face. Even sensitive skin can be treated with a roller.
- The wax is left on the skin, so it doesn't cause too much irritation.
- The wax in the roller is used, so there's no sticky residue left behind for post-depilatory treatment.
- Its quicker!

Product Description

Strip Wax Black - 100ml cartridge Liposoluble black roll-on depilatory wax , for delicate armpits and bikini areas. Xanitalia fat-soluble depilatory waxes remain solid at room temperature and have a very low melting point, limiting the loss of their excellent depilatory properties during processing. This wax is made from natural resins (extracted from maritime pines). The black colour has been specially designated for male hair removal. The formula is suitable for all skin types. The wax does not stick to the skin, but adheres to the hair, thus ensuring less painful waxing experience.
